January 15, 2026

Empower Mental Health
7740 N 16th St #300,
Phoenix, AZ, 85020

Dear Dr. Loeb,

Roth & Company, LLP ("Roth &Co" or "we") have made certain inquiries and have obtained certain information with respect to the due diligence of Empower Mental Health ("Company"). The purpose of such inquiries is solely to assist the Company in gaining an understanding of the historical and prospective balance sheets and statements of income with respect to the Company as an ongoing business. A substantial amount of the information contained in this report was furnished to us by Company management and we have not verified the accuracy or completeness of what we were furnished.

This report is solely for your information to assist you in connection with the contemplated transaction and is not to be referred to or distributed to anyone outside of the Company without the consent of Roth & Company, LLP.

Our procedures were limited to those outlined in the engagement letter as described in the appendix of this report. In performing these procedures, we had discussions with the Company's employees and external advisors. Our procedures did not include an evaluation of the Company's internal controls or other aspects of its operations. Our report relates only to the items specified. Other matters of possible interest to the Company may not be specifically addressed.

Our report does not constitute an audit, examination, review, or compilation of the historical and prospective financial information conducted in accordance with generally accepted auditing standards or other standards established by the American Institute of Certified Public Accountants ("AICPA"). Accordingly, we do not express an opinion or any other form of assurance with respect to any of the historical financial information or whether the prospective financial information is presented in conformity with AICPA presentation guidelines.

Respectfully submitted,

Roth & Company LLP

Roth & Company, LLP
Brooklyn, NY

Section 2: Executive Summary – Company Overview

Observation	Description
History	The Company was established in 2019 by Dr. Yisroel Loeb. He serves as the company's CEO.
Organizational Chart	The Company employs approximately 20 individuals. Key members of the management team include Dr. Sherry Craft (Chief Clinical Officer), Dr. Ashlee Rincon (Director of Clinical Operations), and Dr. Benzion Blech. The company also works with over 120 contractors.
Industry	Mental Health Care
Divisions	**VA (Veterans Affairs):** Represents revenue derived from contracted arrangements with the Department of Veterans Affairs to perform medical examinations and provide healthcare services to eligible veterans. **PI (Personal Injury):** Represents medical services and evaluations provided to patients involved in personal injury litigation or accident claims.

Section 2: Executive Summary – Key Findings & Limitations

Observation	Description
Reliance on Management Representations & Data Quality	**Reliance on Management Representations & Data Quality**: The findings presented in this report rely heavily on the accuracy and completeness of data provided by the Company's Management and third-party billing servicers. **Historical Data Limitations**: The Company historically maintained records on a cash basis, did not maintain a formal Accounts Receivable subsidiary ledger, and lacked a system to formally track exam volume prior to July 7, 2025. **No Independent Verification**: We have not independently verified the underlying source documents (e.g., individual medical charts, bank deposit slips) against the aggregated datasets provided. We assume no responsibility for errors or omissions arising from the Company's lack of historical internal controls.
Veterans Affairs (VA) Pro Forma Estimates & Realization Risks (August 2025 – November 2025)	Revenue results for the period of August 2025 through November 2025 are highly sensitive estimates and not based on actual cash collections. **Reliance on Projections**: Revenue for this period was derived by applying Management's projected realization rate to reported exam volume. **Collection Risk**: We have not performed testing to validate that the projected realization rate is consistent with current payer contracts or recent denial trends. If actual collection rates, payer mixes, or denial rates deviate from Management's assumptions, the actual revenue realized for this period may be materially different than reported herein. **Volume Tracking**: We relied on the accuracy of the Company's internal system for VA exam volume counts for exams performed from August 1st, 2025, through November 30th , 2025. We have not observed or counted physical inventory or patient visits.
VA Revenue Basis and Data Limitations (January 2024 – June 2025)	**Basis of Estimate:** For the period referenced above, Roth&Co utilized Management's internal estimates regarding VA exam volume and projected revenue per exam as the baseline for revenue recognition. **Variance Analysis:** Upon comparing these estimates against the available Explanation of Payment (EOP) data, a variance was identified between Management's projections and the actual collections recorded in the EOPs. **Data Dating Inconsistencies:** We noted that a portion of the source EOP data utilized the invoice date rather than the date of service (exam date). This inconsistency in dating methodology may have contributed to the observed variances. **Limitation of Scope:** Roth&Co has not independently verified the completeness of the EOP data provided. Consequently, we are unable to definitively reconcile the variance or provide an opinion on the specific causes of the discrepancy between the EOP data and Management's estimates.
Personal Injury (PI) Revenue & Data Limitations (Entire Period)	**Nature of Estimates:** Revenue results for the entire review period are highly sensitive estimates and are not based on actual cash collections. **Reliance on Projections:** Revenue for the entire period was derived mathematically using Management's projected realization rate applied to the reported exam volume. **Collection Risk:** We have not performed testing to validate that the projected realization rate is consistent with actual settlement outcomes or historical denial trends. If actual collection rates, settlement amounts, or denial rates deviate from Management's assumptions, the actual revenue realized for the entire period may be materially different than reported herein. **Volume Tracking:** We rely on the accuracy of the Company's internal system for PI exam volume counts for the **entire review period**. We have not observed or counted physical inventory or patient visits.

Section 2: Executive Summary – Key Findings & Limitations (Cont.)

Observation	Description
COGS Calculations	The Company lacked detailed source documentation for Cost of Goods Sold for the nineteen-month period from January 1st, 2024, through July 30th, 2025. For this period, COGS is presented based solely on Management's estimates and has not been verified by Roth. Roth's verification procedures were limited to the four-month period from August 1st, 2025, through November 30th, 2025. For this period, Roth relied on an exam-by-exam schedule provided by Management to recalculate COGS. We note that Management does not independently track COGS within the general ledger; therefore, our analysis for the recent period is dependent on the completeness and accuracy of the provided schedule.
Basis of Accounting	**Fiscal Year 2023:** Presented entirely on a cash basis without adjustment. **Fiscal Year 2024 and 2025 (Year-to-Date):** Presented on a cash basis, except where specific accrual-based adjustments are explicitly detailed within this report. Unless a specific adjustment is noted, the reader should assume all line items represent cash receipts and disbursements. **Inclusion of Discontinued Operations in Cash Records.** The Company's original books and records include cash receipts derived from a clinic location that is no longer in operation as of March 2025. As such, any reference to the Company's "Cash Collections" calculated based on these original records includes this discontinued activity and does not represent the valid run-rate revenue of the ongoing business. Readers are advised that unadjusted cash collections overstate the Company's sustainable recurring revenue.

Roth&Co

Section 3: Quality of Earnings

Section 3: Quality of Earnings

Quality of Earnings	FY23 Dec-23	FY24 Dec-24	TTM Nov-25
Net Income (Loss)	**26,546**	**918,809**	**(91,253)**

Reported EBITDA Margin	**3%**	**13%**	**-1%**
Adjusted Proforma EBITDA Margin as a % of Revenue	**0%**	**9%**	**18%**

GAAP Adjustments

- **Insurance Normalization**: Per discussion with management, insurance costs were recognized on a cash basis. Because the company did not consistently pay its premiums, management provided an estimate of the monthly premiums, which Roth&Co assigned to the correct months for the year 2025. This did not affect year-to-year income.
- **VA Revenue**: Historically, the Company reported on a cash basis, recognizing revenue upon collection rather than service delivery, and lacked a formal Accounts Receivable ledger or exam volume tracking prior to July 7th, 2025. To reconstruct accrual-basis revenue, Management provided Roth&Co with revenue estimates derived from exam volumes and Management's projected revenue per exam. Specifically, for the period of August through November 2025, Management supplied a detailed schedule of exams and expected revenue, which Roth&Co utilized to calculate revenue for these months. These projections rely on Management's assumption that the Company will realize a 100% collection rate on billed revenue.
- **PI Revenue:** Historically, the Company reported on a cash basis, recognizing revenue upon collection rather than service delivery. Roth&Co utilized data from the Company's internal system with management projected revenue, to track PI revenue based on all completed exams.
- **Accrual COGS:** Management provided Roth&Co with accrued Cost of Goods Sold (COGS) figures for the periods through June 2025. Roth&Co notes that it did not possess the necessary information to independently evaluate the methodology applied by Management for these historical calculations. For the subsequent period of August through November 2025, Management supplied a detailed, case-by-case schedule of anticipated costs for each exam, which was used to project expenses for this timeframe.

Section 3: Quality of Earnings Cont.

Quality of Earnings	FY23 Dec-23	FY24 Dec-24	TTM Nov-25
Net Income (Loss)	**26,546**	**918,809**	**(91,253)**
EBITDA, Reported			
Interest Income	-	(65)	(101)
Interest Expense	9,350	11,108	9,347
Depreciation Expense	5,971	-	-
EBITDA, Reported	**41,867**	**929,852**	**(82,007)**
GAAP Adjustments

Proforma Adjustments	**-**	**(237,620)**	**(325,765)**
Adjusted Proforma EBITDA	**45,543**	**639,056**	**1,702,162**
Reported EBITDA Margin	**3%**	**13%**	**-1%**
Adjusted Proforma EBITDA Margin as a % of Revenue	**0%**	**9%**	**18%**

GAAP Adjustments

- **EOP Variance:** Management provided Roth&Co with Explanation of Payment (EOP) data. Upon reconciling these figures, Roth&Co identified variances across all reviewed months, which Management attributed to the inherent estimation involved in their revenue-per-exam modeling. Roth&Co notes that it could not independently verify the completeness of the EOP data for any period presented. However, regarding the period from July 2025 through November 2025, the likelihood of incomplete data is significantly higher due to the standard lag between service delivery and collection. Consequently, Roth&Co did not perform a variance analysis for this specific timeframe.
- **Cash Revenue**: As the Company maintains its books on a cash basis, Roth&Co reversed the recorded cash revenue to present the financial results on an accrual basis.
- **Cash COGS:** As the Company maintains its books on a cash basis, Roth&Co reversed the recorded cash COGS to present the financial results on an accrual basis.

Section 3: Quality of Earnings (Cont.)

Reported EBITDA Margin	**3%**	**13%**	**-1%**
Adjusted Proforma EBITDA Margin as a % of Revenue	**0%**	**9%**	**18%**

Management Adjustments

- **Prepaid Rent:** Management booked a security deposit and the final month's rent as a current period expense. This should have been recorded as an asset.
- **Auto Expenses**: Management identified expenses related to auto and travel for key employees deemed to be discretionary. These are not expected to continue under a new ownership structure.
- **Duplicate Rent Expense**: Management incurred overlapping rent expenses due to leasing a larger space prior to the expiration of their initial lease. This lease is ending in 2029, but management intends to sub-lease this space.
- **Bad Debt (Employee Housing Loan):** This adjustment represents a loan related to a venture for building employee housing. This is a non-operating, non-recurring item.
- **Payroll & Tax Reclassification:** Management identified funds paid to a previous payroll provider for staff payroll and taxes. Following a change in providers, a refund was requested. Management asserts that they will be refunded in full for both the payroll cost and payroll taxes. These funds have been reclassified as accounts receivable (payroll) and prepaid assets (taxes) rather than expenses.
- **Financial Modeling Fees:** This adjustment represents fees paid for financial modeling performed specifically at the request of potential investors. These are transaction-related and not expected to recur.
- **Charity:** Management identified company contributions to charity that are discretionary in nature.

Reported EBITDA Margin	**3%**	**13%**	**-1%**
Adjusted Proforma EBITDA Margin as a % of Revenue	**0%**	**9%**	**18%**

Management Adjustments (Cont.)

- **Furniture/Supplies**: This adjustments includes transactions related to moving expenses (furniture and supplies) incurred during the relocation from the company's first office. This is a one-time expense.
- **Mentoring Fees:** Management identified fees paid for consulting/supervision during the early stages of Dr. Loeb's career. This expense is not expected to recur.
- **Meals & Entertainment - Personal expense:** Management identified transactions in 2024 and YTD 2025 for discretionary meals not related to employees or customers.
- **Travel Expenses:** Management identified discretionary travel expenses that are not expected to continue. Management stated that 40% of travel expenses are not related to the business.
- **Business Development:** Management identified large initial investments in business development that they believe were required in the early stages of the business and will not be required at similar levels in the future.
- **Owner's Personal Taxes**: Management identified federal and state income tax payments made on behalf of the current owner through the company. These are unrelated to business operations.

Reported EBITDA Margin	**3%**	**13%**	**-1%**
Adjusted Proforma EBITDA Margin as a % of Revenue	**0%**	**9%**	**18%**

Diligence Adjustments:

- **Employee Tuition:** Management represents that this is a one-time discretionary expense paid on behalf of an employee for education.
- **HVAC Service:** Identified expenses related to a specific servicing of the HVAC system, which Management represents is a one-time occurrence.
- **Capitalization of Assets (Office Art):** Transactions related to paintings for the office were originally expensed. Based on Management's explanation, these should have been capitalized as fixed assets.
- **Consulting (Halachic):** Expenses related to Halachic (religious) consulting, which Management stated are discretionary and not expected to continue
- **Team Morale Events**: One-time expenses related to specific employee events that are not expected to continue at this level.
- **Freelancers**: This category refers to discretionary, non-recurring expenditures for project-specific contractors engaged to complete isolated deliverables, such as pitch deck creation or website development. Management has confirmed that these are one-time costs and are not expected to recur.
- **Credit Card Repayment Classification:** The Company incorrectly classified credit card bill payments as an expense. Roth&Co has reversed this entry to correct the classification error.
- **CFO Signing bonus:** Management confirmed **the** CFO received a signing bonus upon joining the company. This is a one-time expense and is not expected to recur.

Section 3: Quality of Earnings (Cont.)

Quality of Earnings	FY23 Dec-23	FY24 Dec-24	TTM Nov-25
Net Income (Loss)	**26,546**	**918,809**	**(91,253)**
EBITDA, Reported			
Interest Income	-	(65)	(101)
Interest Expense	9,350	11,108	9,347
Depreciation Expense	5,971	-	-
EBITDA, Reported	**41,867**	**929,852**	**(82,007)**
GAAP Adjustments	**-**	**(672,956)**	**844,413**
Management Adjustments	**3,676**	**540,496**	**1,041,881**
Diligence Adjustments	**-**	**79,284**	**223,639**
Adjusted EBITDA	**45,543**	**876,676**	**2,027,927**
Proforma Adjustments			
CEO Salary Normalization	-	(269,125)	(269,125)
Recruitment Expense	-	10,923	-
Payroll Processing Fees	-	20,583	25,264
CFO Salary Normalization		-	(81,904)
Proforma Adjustments	**-**	**(237,620)**	**(325,765)**
Adjusted Proforma EBITDA	**45,543**	**639,056**	**1,702,162**
Reported EBITDA Margin	**3%**	**13%**	**-1%**
Adjusted Proforma EBITDA Margin as a % of Revenue	**0%**	**9%**	**18%**

Proforma Adjustments

- **CEO Compensation Adjustment:** The CEO has historically made contributions rather than taking a salary. A pro forma adjustment has been made to reflect a market salary of $250,000 plus estimated payroll taxes, which would be instated in the event of a transaction.
- **Recruitment Expense Efficiency:** Recruitment costs have dropped significantly as Management has streamlined tasks. An adjustment has been made to reflect the lower, ongoing run-rate cost.
- **Payroll Processing Normalization:** Payroll-related expenses have decreased due to operational streamlining. Roth&Co proposed an adjustment to reflect ongoing expenses based on the average of the last three months.
- **CFO Salary Normalization.** Management disclosed that the CFO is a part-time employee who joined in 2025. The company compensated him with RSUs and therefore, did not put the salary as an expense. Consequently, Roth&Co benchmarked CFO salaries in the client's location and determined that a full-time salary of $166,000 is appropriate. We adjusted this figure by 50% to reflect the part-time status.

Interest Income	91
Other Income	3,310
Other Income	**3,401**
Net Income	**2,562,398**

Disclosure

Note on Pro Forma 2025 YTD Financials: The Pro Forma financial information for the Year-to-Date 2025 period regarding VA Revenue is presented for illustrative purposes and relies on significant Management estimates. Roth notes the following limitations regarding the compilation of this data:

Revenue Estimation: Revenue figures presented herein have been derived based on Management's Key Performance Indicator (KPI) reports regarding exam volume, applied against a Management-estimated average revenue per exam. Roth noted material discrepancies between the exam counts in the KPI reports and the End-of-Period (EOP) data, as well as inconsistencies with Management's other internal reporting. Roth has not been able to reconcile these differences or independently verify the average revenue per exam assumptions used in these calculations

Cost of Revenue Estimation: Due to limitations in the Company's financial reporting environment, Roth was unable to calculate Cost of Revenue using granular transactional data. Consequently, Cost of Revenue was estimated by applying Management's average cost per exam to the KPI exam counts referenced above. As Roth could not validate the exam counts or the average cost per practitioner, we express no opinion on the accuracy of these estimates.

Operating Expenses (OpEx): OpEx figures are based exclusively on estimates provided by Management. Roth was unable to verify these expenses against source documentation or historical trends.

Section 6: Appendices – Statement of Work

Procedures

Roth&Co was engaged to perform targeted financial analysis in support of the transaction. The scope included a review of key operational and financial areas to assess accuracy, identify normalization adjustments, and support a quality of earnings evaluation.

- Assist management in estimating the Accrual income for FY 2024 and YTD 2025.
- Perform a proof of cash
- Compile a pro forma income statement for the YTD VA income.
- EBITDA Normalizations & adjustments
- Other standard QoE Analysis
